

# SARJANA MUDA KEJURUTERAAN ELEKTRIK

*BACHELOR OF  
ELECTRICAL ENGINEERING*

# SARJANA MUDA KEJURUTERAAN ELEKTRIK

## BACHELOR OF ELECTRICAL ENGINEERING

### Pengenalan | Introduction

Kejuruteraan elektrik secara umumnya melibatkan pengajian dan aplikasi elektrik, elektronik serta elektromagnetisme. Bidang ini merangkumi pelbagai cabang khusus, termasuk elektronik, komputer digital, kejuruteraan kuasa, telekomunikasi, sistem kawalan dan pemprosesan isyarat. Jurutera elektrik telah menyumbang kepada pembangunan teknologi realiti maya moden serta memperluas rangkaian pengagihan tenaga elektrik ke kawasan luar bandar yang luas di negara-negara membangun.

Program Sarjana Muda Kejuruteraan Elektrik memberikan pendedahan kepada pelajar tentang teori dan aplikasi elektrik, elektronik, maklumat serta pemprosesan isyarat. Program ini dirancang berasaskan satu set kursus teras yang menyediakan asas kejuruteraan elektrik klasik, di samping beberapa kursus elektif yang membolehkan pelajar mengkhusus dalam bidang yang diminati. Penekanan turut diberikan kepada aplikasi pengetahuan kejuruteraan dalam menyelesaikan masalah dan memenuhi keperluan industri.

*Electrical engineering generally deals with the study and application of electricity, electronics, and electromagnetism. It covers a wide range of subfields including electronics, digital computers, power engineering, telecommunications, control systems, and signal processing. Electrical engineers give the world modern virtual reality and spanned power distribution networks across vast rural areas in developing countries.*

*Bachelor of Electrical Engineering exposes students to the theory and applications of electricity, electronics, information and signal processing. The program is designed around a set of core courses that provide a classical electrical engineering foundation, and a number of elective courses that allow students to specialize in areas of interest and emphasis is placed on the application of the engineering knowledge.*

### Objektif Pendidikan Program | Programme Educational Objectives (PEO)

|       |                                                                                                                                                                                                                                                                                           |
|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| PEO 1 | Graduan menjadikan diri mereka sebagai profesional yang terlatih dalam bidang Kejuruteraan Elektrik atau bidang yang berkaitan.<br><i>Graduates establish themselves as practicing professionals in Electrical Engineering or related fields.</i>                                         |
| PEO 2 | Graduan terlibat dalam pencarian pengetahuan sepanjang hayat dan pembelajaran antara disiplin yang sesuai untuk kerjaya industri dan akademik.<br><i>Graduates engage in lifelong pursuit of knowledge and interdisciplinary learning appropriate for industrial and academic careers</i> |
| PEO 3 | Graduan yang menyumbang kepada pembangunan lestari dan kesejahteraan masyarakat.<br><i>Graduates contribute to sustainable development and the well-being of society.</i>                                                                                                                 |

## Hasil Pembelajaran Program | Programme Learning Outcome (PLO)

Pada akhir program, lulusan dapat:

*At the end of the programme, graduates are able to:*

|               |                                                                                                                                                                                                                                                                                                                                       |
|---------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>PLO 1</b>  | Apply knowledge of mathematics, natural science, computing and engineering fundamentals, and an engineering specialization to develop solutions to complex electrical engineering problems. (WK1-WK4)                                                                                                                                 |
| <b>PLO 2</b>  | Identify, formulate, research literature and analyze complex electrical engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences with holistic considerations for sustainable development. (WK1-WK4)                                                  |
| <b>PLO 3</b>  | Design creative solutions for complex electrical engineering problems and design systems, components or processes to meet identified needs with appropriate consideration for public health and safety, wholelife cost, net zero carbon as well as resource, cultural, societal, and environmental considerations as required. (WK5)  |
| <b>PLO 4</b>  | Conduct investigation of complex electrical engineering problems using research methods including research-based knowledge, including design of experiments, analysis and interpretation of data, and synthesis of information to provide valid conclusions. (WK8)                                                                    |
| <b>PLO 5</b>  | Create, select and apply, and recognize limitation of appropriate techniques, resources, and modern engineering and IT tools, including prediction and modelling, to complex electrical engineering problems. (WK2 and WK6)                                                                                                           |
| <b>PLO 6</b>  | Analyze and evaluate sustainable development impacts to: society, the economy, sustainability, health and safety, legal frameworks, and the environment, in solving complex electrical engineering problems. (WK1, WK5, and WK7)                                                                                                      |
| <b>PLO 7</b>  | Demonstrate an understanding of the need for diversity and inclusion. Apply ethical principles and commit to professional ethics and norms of electrical engineering practice and adhere to relevant national and international laws. (WK9)                                                                                           |
| <b>PLO 8</b>  | Function effectively as an individual, and as a member or leader in diverse and inclusive teams and in multidisciplinary, face-to-face, remote and distributed settings. (WK9)                                                                                                                                                        |
| <b>PLO 9</b>  | Communicate effectively and inclusively on complex electrical engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, taking into account cultural, language, and learning differences. |
| <b>PLO 10</b> | Apply knowledge and understanding of electrical engineering management principles and economic decision-making and apply these to one's own work, as a member and leader in a team, and to manage projects in multidisciplinary environments.                                                                                         |
| <b>PLO 11</b> | Recognise the need for, and have the preparation and ability for i) independent and life-long learning ii) adaptability to new and emerging technologies and iii) critical thinking in the broadest context of technological change. (WK8)                                                                                            |

# Pendidikan Berasaskan Hasil (OBE) | Outcome-Based Education (OBE)

Pendidikan Berasaskan Hasil (Outcome-Based Education, OBE) telah dilaksanakan di Fakulti Kejuruteraan sejak tahun 2004, selaras dengan arahan Kementerian Pengajian Tinggi Malaysia dan Lembaga Jurutera Malaysia (Board of Engineers Malaysia, BEM). Pelaksanaan OBE juga merupakan salah satu keperluan bagi Malaysia untuk menjadi ahli penuh Washington Accord (WA), iaitu sebuah perjanjian antarabangsa yang mengiktiraf secara bersama ijazah Sarjana Muda dalam bidang kejuruteraan.

OBE merupakan model pendidikan yang diamalkan di peringkat antarabangsa dan memberi tumpuan kepada pengukuran hasil pembelajaran pelajar serta pelaksanaan tindakan penambahbaikan bagi mengatasi kekurangan dalam kaedah penyampaian kursus, kaedah penilaian, sikap pelajar dan aspek-aspek berkaitan. Kurikulum direka bentuk dengan hasil kursus (Course Outcomes, COs) yang khusus bagi mempersiapkan graduan untuk mencapai atribut graduan/hasil pembelajaran program (Programme Outcomes, POs) pada masa tamat pengajian.

POs pula dirangka bagi menghasilkan graduan yang bersedia untuk mencapai objektif pendidikan program (Programme Educational Objectives, PEOs) dalam tempoh 3 hingga 5 tahun selepas mereka menamatkan pengajian. PEOs dan POs telah dirumuskan melalui rundingan dengan semua pihak berkepentingan utama, termasuk majikan, alumni dan pelajar, bagi memenuhi tuntutan persekitaran pekerjaan yang semakin mencabar dan bersifat global.

*Outcome-Based Education (OBE) had been implemented in the Faculty of Engineering since 2004, in accordance with the directives of the Ministry of Higher Education Malaysia and the Board of Engineers Malaysia (BEM). This is also one of the requirements for Malaysia to become a full member of the Washington Accord (WA), an international agreement to mutually recognize Bachelor degrees in the field of engineering.*

*OBE is an internationally practised educational model that focuses on the measurement of student outcomes and the implementation of corrective measures to overcome deficiencies in course delivery methods/assessment/student attitude, etc. Curriculum is designed with specific course outcomes (COs) to prepare the graduates to achieve the graduate attributes/programme outcomes (POs) at the point of graduation.*

*The POs are designed to produce graduates who are well-prepared to achieve the programme educational objectives (PEOs) 3 - 5 years after they have graduated. The PEOs and POs had been formulated in consultation with all major stakeholders (employers, alumni and students), to meet the demands of a challenging and globalized workplace.*

| PELAN PENGAJIAN SARJANA MUDA KEJURUTERAAN ELEKTRIK |                                                                   |                |                                                                                     |                  |                |                                                                                                       |                  |

# PEJABAT TIMBALAN DEKAN (IJAZAH DASAR)

## OFFICE OF DEPUTY DEAN (UNDERGRADUATE STUDIES)

Pejabat Ijazah Dasar bertujuan untuk membantu pelajar, serta menguruskan hal-hal ehwal berkenaan pengurusan program Sarjana Muda Fakulti Kejuruteraan.

*The Office of the Deputy Dean (Undergraduate Studies) aims to assist students, as well as managing the Faculty of Education's Undergraduate programs.*

### KURSUS UNIVERSITI

#### UNIVERSITY COURSES

Pelajar **WAJIB** menyempurnakan **kursus-kursus universiti** (setiap kursus membawa 2 jam kredit) berdasarkan penyempurnaan dan pelan pengajian program masing-masing.

Student are **REQUIRED** to complete **university courses** (each carries 2 credit) based on the respective study plan of the programme.

| Pelajar Warganegara<br><i>Local Student</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Pelajar Antarabangsa<br><i>International Student</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

# PETIKAN DARIPADA KAEDAH DAN PERATURAN

## EXCERPTS FROM RULES AND REGULATIONS

### PENDAFTARAN KURSUS

#### COURSE REGISTRATION

- Pelajar dikehendaki mengikuti program pengajiannya berdasarkan struktur program pengajian sepertimana yang ditentukan oleh Fakulti dan diluluskan oleh Senat.
  - Pendaftaran kursus hendaklah disempurnakan sebelum sesuatu semester bermula. Pelajar yang tidak menyempurnakan pendaftaran dalam tempoh yang ditetapkan tidak dibenarkan untuk mengikuti kursus berkenaan.
  - Pelajar bertanggungjawab menyemak dan memastikan kod kursus yang didaftar adalah betul. Selepas tamat tempoh yang ditetapkan, kursus yang didaftar adalah muktamad dan sebarang pindaan tidak dibenarkan
  - Jumlah kredit maksimum yang boleh didaftar oleh pelajar adalah seperti berikut:
- *A student is required to pursue his programme of study based on the structure of the programme of study as prescribed by the Faculty and approved by the Senate.*
  - *Registration for any course must be completed before the semester starts. Any student who does not complete his registration within the duration prescribed will not be allowed to pursue the course concerned.*
  - *A student is responsible to check and ensure that the course code that is registered for is correct. At the end of the prescribed period, the courses that are registered is final and no further changes are allowed.*
  - *The maximum number of credits which can be registered by a student is as follows:*

| Status Pelajar<br><i>Student's Status</i>                                                                                               | Semester Biasa<br><i>Normal Semester</i> | Semester Khas<br><i>Special Semester</i> |

### KEHADIRAN

#### ATTENDANCE

- Pelajar **diwajibkan** menghadiri semua aktiviti pengajaran dan pembelajaran berkaitan dengan program pengajian yang diikutinya.
- Pelajar yang tidak menghadiri mana-mana aktiviti pengajaran dan pembelajaran dikehendaki memaklumkan alasan ketidakhadirannya kepada guru dengan segera dengan menyertakan dokumen sokongan yang berkaitan. Guru hendaklah memaklumkan kepada pelajar akibat ketidakhadiran dan bertanggungjawab menyimpan rekod pemakluman dan kehadiran kelas.
- *It is **compulsory** for a student to attend all teaching and learning activities related to his programme of study*
- *A student who does not attend any teaching and learning activities is required to inform the reason for his absence to the teacher immediately together with the relevant supporting documents. The teacher shall inform the student of the consequences of being absent and is responsible to keep the records of the notification and class attendance.*

## SKIM PEMARKAHAN

### GRADING SCHEME

Gred rasmi Universiti serta markah dan maksudnya adalah seperti berikut.

*The official grade of the University and its meaning are as follow.*

| Markah<br>Marks                                                  | Gred<br>Grade      | Mata Gred<br>Grade Pointer   | Maksud<br>Meaning                                                                                            |
|------------------------------------------------------------------|--------------------|------------------------------|--------------------------------------------------------------------------------------------------------------|

- **Gred lulus** bagi semua kursus adalah **gred C**.
- Pelajar **hendaklah memperoleh PNG dan PNGK tidak kurang daripada 2.00** pada setiap semester sehingga tamat pengajiannya.
- *The **passing grade** for all courses is **grade C**.*
- *A student **shall obtain a GPA and CGPA of not less than 2.00** for each semester until the completion of his studies.*

## RAYUAN TERHADAP KEPUTUSAN PEPERIKSAAN

### APPEAL AGAINST EXAMINATION RESULTS

- Pelajar yang tidak berpuas hati dengan keputusan peperiksaannya termasuk komponen penilaian berterusan dan/atau peperiksaan akhir kursus boleh merayu untuk semakan semula keputusan peperiksaan. Rayuan hendaklah dibuat dalam tempoh tujuh (7) hari dari tarikh pengumuman rasmi keputusan peperiksaan.
- Satu (1) bayaran atas kadar yang ditetapkan hendaklah dikenakan bagi memproses rayuan untuk semakan semula keputusan peperiksaan. Bayaran itu tidak akan dikembalikan sama ada rayuan berjaya atau tidak.
- Borang rayuan tidak akan diterima sekiranya ia:
  - a) dikemukakan selepas tempoh yang dinyatakan dalam subperaturan (1) di atas;
  - b) tidak lengkap; atau
  - c) dikemukakan tanpa resit bayaran.
- *A student who is not satisfied with his examination results including the continuous assessment component and/or final examination of the course may appeal for a review of his examination results. The appeal shall be made within **seven (7) days** from the official date of announcement of his examination results.*
- *A payment based on the prescribed rate shall be made to process the application for examination results to be reviewed. The payment made is non-refundable regardless whether the appeal is successful or otherwise.*
- *The form for an appeal will not be accepted if it is:*
  - a) *submitted after the period stipulated in subregulation (1) above;*
  - b) *incomplete; or*
  - c) *submitted without the payment receipt*

## ANUGERAH DEKAN

### DEAN'S LIST AWARD

- Pelajar hendaklah memperolehi PNG dan **PNGK tidak kurang daripada 2.00** pada setiap semester sehingga tamat pengajiannya
- Pelajar yang mencapai PNG 3.70 dan ke atas bagi mana-mana semester dan memenuhi syarat berikut layak diberikan Anugerah Dekan bagi semester berkenaan.
  - a) Menyempurnakan sekurang-kurangnya 15 kredit dalam semester berkenaan yang mengandungi empat (4) kursus, tidak termasuk kursus yang kreditnya tidak diambil kira dalam pengiraan kredit kira.
  - b) Memperolehi tidak kurang daripada gred C bagi semua kursus yang disempurnakan dalam semester berkenaan; dan
  - c) Tidak pernah mengulang kursus yang gagal dan/atau mempertingkatkan gred kursus dalam semester berkenaan.
- *A student should strive to maintain a **CGPA of 2.00** and above each semester until the end of his/her studies.*
- *A student who obtains a GPA of 3.70 and above in any semester and fulfills the following conditions shall be awarded Dean's list Award for the semester.*
  - a) *has completed a minimum of 15 credits in the respective semester with a minimum of four (4) courses, not including courses which the credits are not taken into account in the calculation of credit counted.*
  - b) *has obtained not lower than a C grade for all the courses completed in the respective semester.*
  - c) *Has not repeat any of the course in which he has failed prior and/or improved his grade in the respective semester.*

## GAGAL KELUAR DAN DITAMATKAN PENGAJIAN

### FAILED AND TERMINATED FROM PROGRAMME OF STUDY

- Pelajar boleh gagal keluar dan ditamatkan daripada program pengajiannya sekiranya:
  - a) sedang berada dalam Tempoh Pemerhatian Akademik dan selepas itu mendapat PNG 1.30 atau kurang untuk dua (2) semester berturut-turut;
  - b) memperoleh PNG kurang daripada 2.00 untuk empat (4) semester berturut-turut;
  - c) memperoleh gred F sebanyak tiga (3) kali bagi kursus yang sama;
  - d) memperoleh PNGK kurang daripada 1.00 untuk dua (2) semester berturut-turut; atau
  - e) gagal menyempurnakan keperluan program pengajiannya dalam tempoh maksimum yang ditetapkan.
- *A candidate is termed as failed and terminated from the programme of study if:*
  - a) *is placed under an Academic Probationary Period and subsequently obtains a GPA of 1.30 or less for two (2) consecutive semesters;*
  - b) *obtains a GPA of less than 2.00 for four (4) consecutive semesters;*
  - c) *obtains a grade F three (3) times for the same course;*
  - d) *obtains a CGPA of less than 1.00 for two (2) consecutive semesters; or*
  - e) *fails to complete the requirements of his programme of study within the prescribed maximum period.*
- Apabila seseorang pelajar ditamatkan daripada program pengajiannya, notis penamatan hendaklah dihantar kepada pelajar oleh Universiti.
- *When a student has been terminated from his programme of study, the termination notice shall be sent to the student by the University*
- Mana-mana pelajar yang merayu dan diterima masuk semula akan ditamatkan pengajiannya sekiranya memperoleh PNG kurang daripada 2.00 pada semester di mana pelajar tersebut diterima masuk semula. Pelajar tersebut juga masih tertakluk kepada syarat-syarat seperti yang dinyatakan di dalam subperaturan (1) di atas.
- *Any student who appealed and is re-admitted after being terminated from his programme of study, shall have his study terminated if he obtains a GPA of less than 2.00 for the semester in which the student is re-admitted. The said student remains subjected to the conditions stated in the subregulation (1) above.*

## PENGANUGERAHAN IJAZAH SARJANA MUDA LULUS DENGAN KEPUJIAN

### CONFERMENT OF BACHELOR'S DEGREE WITH HONOURS

- Pelajar boleh dianugerahkan ijazah apabila telah memenuhi keperluan program pengajian seperti yang ditetapkan dalam Peraturan 46 di atas.
- Ijazah yang dianugerahkan adalah ijazah kepujian berdasarkan PNGK terakhir. Untuk melayakkan dianugerahkan ijazah Lulus Dengan Kepujian ini, **pelajar hendaklah mencapai PNGK terakhir tidak kurang daripada 2.00.**
- *A student may be awarded a degree once he has fulfilled the requirements of his programme of study as prescribed in Regulation 46 above.*
- *The degree awarded is an honours degree based on the final CGPA. In order to qualify to be awarded a Pass With Honours degree, the student shall obtain a final CGPA of not less than 2.00.*

## PENGANUGERAHAN IJAZAH SARJANA MUDA LULUS DENGAN KEPUJIAN (DENGAN CEMERLANG)

### CONFERMENT OF BACHELOR'S DEGREE WITH HONOURS (WITH DISTINCTION)

- Pelajar layak dianugerahkan ijazah Sarjana Muda Lulus Dengan Kepujian (Dengan Cemerlang) sekiranya:
  - a) mencapai PNGK terakhir 3.70 dan ke atas;
  - b) tidak pernah mendapat gred F bagi mana-mana kursus sepanjang tempoh program pengajiannya;
  - c) tidak pernah mengulang kursus yang gagal dan/atau mempertingkatkan gred kursus; dan
  - d) berjaya menamatkan program pengajian dalam tempoh minimum atau tempoh yang diluluskan.
- *A student is qualified to be awarded with Bachelor's Degree of a Pass With Honours (With Distinction) if he:*
  - a) *achieves a final CGPA of 3.70 and above;*
  - b) *has never obtained grade F for any course throughout the duration of his programme of study;*
  - c) *has never repeated any course where he failed and/or upgraded his course grade; and*
  - d) *has successfully completed his programme of study within the minimum duration or approved duration.*
